

The Hajj

The journey of HAJJ is an act of worship unlike any seen before in the history of humanity. It is a movement towards Allah (swt) and understanding oneself and the life given to us by Allah (swt)

it is the fulfillment of a covenant made with our Creator, displayed in the biggest gathering in humanity, all striving for one and only one sole purpose, in obedience to God, the One the Most Merciful. No person has any superiority or advantage over another. Every nationality over another. Every nationality and every race and every background move together shoulder to shoulder in this life-altering physical and spiritual journey in which you are a vital member and benefactor.
